ELECTRICAL SERVICES

Power Wiring and Motor Controls

SMC performs all types of power wiring and controls for industrial plants, manufacturing facilities, shipyards and commercial buildings.

Substation and Transformer Work

SMC has the equipment and experience to perform transformer replacements and new installations, large or small.

Instrumentation

SMC installs and calibrates both electronic and pneumatic instrumentation. SMC also has experienced craftspeople who install and test fiber optic systems.

High Voltage Work

SMC has a strong background in high voltage work up to 35 kilovolts.

OVERVIEW

The SMC Electrical Division was established in 1995 and is a significant part of our services. All of our electricians are licensed by the State of Maine and work under a "Code of Excellence" program to provide top quality electrical installations for a wide variety of clients.
